

PET Agriculture Wire

Het-Arya International manufactures a broad range of PET Agro Wire used in agriculture and greenhouses for supporting shade. This can be also used for hanging plants that were traditionally hung on GI wire-like tomato and grapes. The Wire is manufactured from premium grade polyester flakes material sourced from reputed vendors.

*Standard specifications and Comparison

Diameter		Load (average) kg	PET WIRE meterage		GI WIRE meterage		SS WIRE meterage	
Gauge	MM		Mtrs./kg	Ft./kg	Mtrs./kg	Ft./kg	Mtrs./kg	Ft./kg
18	1.5	130	400	1312	73	236	71	232
15	1.7	165	295	970	52	164	49	162
14	2.2	200	213	700	33	110	33	110
12	2.5	280	182	600	26	85	26	85
10	3.0	350	162	531	18	59	18	59
8	3.5	430	120	393	13	43	13	43
6	5.0	725	40	131	6	6	6	21

*Colours : Green and Black other colours will be made on request

*Packaging : 50 kg bag (customizable)

*Bundle Weight: Standard Net Weight of the Bundle is 2 kgs to 3.5 kgs (customizable)

FEATURES:

- 100% Replacement of GI wires
- Rust free wires
- More life span and Light weight
- Absorbs shock and Easy to install
- Cost effective than GI wires
- UV resistance and Chemically inert
